Customer Reviews

Great Boxed set by some of my favorite Authors. Here are two of the stories in the set. Dragon Down By Julia Mills...love her Dragon Guard series and this is another good one Dragon's Kiss by Carina Wilder just Wow. I could not say which one was my favorite they all have there own strengths. I know I am going to be rereading this set. I bought the set once I saw the Authors in it.

This is an anthology of supernatural being that live along side us in the normal world. There are so many authors to choose from. So far my favorites are Shayne Silvers and Aimee Easterling. There is not a story in this group that I have not finished to skip onto the next. If you enjoy sciencefiction/fantasy, this will give you new authors to choose from.

What a great box set..Do you like dragons? Werewolves? Then you will love this set.honorable mentions to..Dark Urge by Gena Lutz..love her werewolves Dragon Down By Julia Mills...love her Dragon Guard series Dragon's Kiss by Carina Wilder All in all a great box set and well worth the money

This book introduces you to many characters and worlds from these authors. It gives you a bit more depth into their lives or introduces you to the characters the first time. It is great way to get your feet wet if you haven't read any of the authors' books. I find that these anthologies bring new series to light and I always find at least one new author to check out.

Wow I thought, just another set of books. But I was pleasantly surprised. Love the series

"Daddy Duty" by Shayne Silvers alone is a good enough reason to buy this set.

Title Fire Kissed Author: Multiple Designation: A Limited Collection of Urban Fantasy & Paranormal Romance Reading Platform: Kindle Edition My Rating: FIVE CAPTIVATING STARS***** Oh my! I love paranormal romance and adore urban fantasy, so when I can get both in one great collection,

I'm in heaven! Fire Kissed includes thirteen captivating stories written by thirteen exceptionally talented authors and you get them all for less than the price of a single book! I'm retired but still passionate about reading, and like most people, I have to manage my money carefully. I've found buying box sets and anthologies to be one of the best ways to get the most bang for my buck, especially when the set includes several of my favorite authors like Carina Wilder and Julia Mills. I've been following Julia Mills' Dragon Guard Series for several years, actually since her first release and I'm completely addicted to Wilder's dragon shifter romance so naturally, my two favorites from this set are Dragon Down by Mills and Dragon's Kiss by Wilder. If you've never read Mills or Wilder's work, you've missed a real treat. I'd pay a heck of a lot more than 99 pennies for just one story from either of these authors. Another advantage of purchasing a collection like this is I get to try new-to-me authors without breaking the bank. I always find several to add to my favorites list and this time was no exception. I'm a real stickler about writing reviews and will never write a review until I've read the entire book, which means I've read every single story in this collection and loved them all. Although this collection is not technically categorized as romance, there is a lot of romance included. I thought all the stories were imaginative, well crafted, and beautifully written. Were they perfect? No, but you definitely get your money's worth and a whole lot more! And fyi, these are not excerpts or teasers but stories varying in length, or what I call novelettes. Some of the stories are standalones and do have either a happy or happy-for-now ending, but several are the first book of a serial and end with a cliffhanger. However, you do get a good representation of the story as well as the author's style and skill, allowing you to decide if you wish to continue the story. After all, that's one of the main benefits of purchasing a multi-author collection - sampling the work of a new author. Did I like this collection? No, I loved it! Would I recommend it? Absolutely! Will I be reading stories by these authors again? You bet! And finally, was I entertained? Completely! Hours of fabulous entertainment, awesome reads, and an incredible bargain!

There are 13 wonderful stories from incredible, well-known authors to choose from in this urban fantasy and paranormal romance set! Although I am only reviewing a representative sample, do not let this box set get away! You will definitely find something you love to read here!>> Reviewing *The Currency of Death* By Domino Finn
