MY BLOG: shoshireads.weebly.com MY REVIEW: [...] Okay, the hardest thing about finding a new

series that you love is reaching the last book and having to say goodbye. The last books of series are always the toughest to read. On one hand you want to speed through the book to find out what happens, on the other hand you want to read the book incredibly slow and savor the series before it ends. You get submersed in the world of the book and you don't want to leave. I've read series that I have loved but when it came down to the last book, it just disappointed me because my expectations were so high from reading the other books in that series. That really wasn't the case when it came to the Lux series. After reading the first book, Obsidian, I fell in love with the series. And after that, book after book in the Lux series, I loved. Opposition was the PERFECT ending to an absolutely phenomenal series! In my Origin review, I said that it was hard for me to distinguish between Katy's and Daemon's POVs. This was not the case in this book. I'm not sure why but it was so easy for me to tell whose mind I was in. I was happy about that because I love the Lux series so much and I don't want any negative things to say about the series. When Katy and Archer went to the store to get items for Beth, I just had this weird feeling that something bad would happen. When I was reading this section of the book, I was on the edge of my seat, waiting for something to happen. And when it finally did, I had to just keep reading and reading. I was so eager to find out what was going to happen, I read this book so quickly. At the beginning of the book, it was hard for me to tell if Daemon really was on the Luxen's side or not. REALLY hard to tell. When we found out that he and Dawson had been faking their emotions, I felt like a weight was lifted off of my shoulders. Soon after, I realized the reason they were able to separate from the invading Luxen was that they had someone that they loved so much, it was able to free them from being controlled. After that my heart broke in two. Dee wasn't faking. I hated Sadi from the moment we first met her. When we found out that she was an Origin and knew that Dawson and Daemon had been faking all along, I really hated her. I loved the scene when Katy attacked Sadi. You go girl!! I was biting my nails when Dee came and Katy had to fight her. I truly didn't know what would happen and that really terrified me. I was shocked when Daemon and Katy learned that because of the Prometheus serum, one could die without killing the other. And I thought, why would Jennifer do that unless one of them dies? So I was basically a nervous wreck from that point on. When Daemon got injured and Kat was thinking about how much she loved him, I burst into tears. It was so upsetting! You really have to read the book to find out what I mean because it's hard to explain. When Archer, Dee, Daemon, Dawson, and Kat went back to Petersburg, I really didn't want Kat to go, in fear of what happened to her mom. When Kat finds out that her mom had been assimilated, my heart broke for her. At the end of the series, lots of characters died. Some were enemies and some were friends. But Daemon and Kat got their happy ending. So did Dawson and Beth, and Archer and Dee. Sadly, Luc didn't and we

don't know exactly what happened to Nadia, but I am assuming she died. I may have gotten some tears on the book when Dawson and Beth name their baby Ash and in the extended parts on Jennifer's website, when Daemon and Kat name their baby Adam. It also shocked me that some Arum like Lore and Hunter weren't necessarily bad. Although lots of Arum still are. Lotho definitely freaked me out. I was intrigued with the idea of an Arum and a human. I read *Obsession* to learn more about Hunter and Serena. And wow. It really was a shocker. The cover of *Opposition* annoys me because it doesn't match with the other books. But we will be getting *Opposition* in a new cover that does actually match the rest of the series. We will also be getting *Shadows* in paperback. These will come out in November.

I did enjoy this last installment in the Lux series, however, it still left much to be desired. Book 1 is my favorite, probably followed by either this or book 2. Books 3 & 4 were "meh" at best. But back to this one... Like I said, I did like it, don't get me wrong -- the story line is still interesting, and the readers still get to follow the lives (however crazy they have now become), of the characters they fell in love with in book 1. However, there is WAY too much going on in this book. Way way WAY too much. I've been trying to put my finger on what exactly bothered me about this novel, and I finally realized that it comes down to the author simply trying to do too much with the story. Although the direction of the story's "end-game" never changes, the characters are all over the place (and not necessarily in a good way) on their way there. The problem with this is that the good stuff that is in there is often either cut short or glossed over to make room for the rest. The author could have written a much tighter, cleaner story had she stuck to a few of the larger plot points (I won't mention here so I can keep this review "spoiler-free"). OR, she could have easily extended the plot points to make them richer, and spread them out over books 3 & 4; while cutting some of the more mundane content in books 3 & 4 (like I said earlier, these were "meh" at best). I also need to note that there were WAY too many typos/editorial errors, inconsistencies, and plot holes for my liking. All this being said, I would still recommend this book, because hey, it's always good to finish a series, right?

Opposition, the conclusion of the Lux Novels continues to be a fantastic read. From start to finish it kept me burning through the pages to find out what would happen next. There was no predicting some of the amazing twists and turns in this storyline. Katy and Daemon continued to capture my heart as they experienced each plot twist. Right up until the very end, they were fighting for their lives, hoping they would survive the end of the world as they know it. Jennifer L Armentrout's ability to develop a world where these alternate life forms exist is amazing. The action and suspense kept

me unable to predict the entire story. Just when I thought I knew where she was heading with Katy and Daemon, I was completely caught off guard and thrown into a different direction. I would highly recommend the entire series. This is a must read that has to start with book one! Jennifer L. Armentrout was new to me before this magnificent series, but this will not be my last read from her!

Opposition is the 5th and final installment in the fantastic Lux Series. I'm so very grateful to have waited for the entire series to be released before diving into it as this was one story that I just HAD to keep reading. This has to be my favourite paranormal romance, and who have thought that it would contain aliens and not vampires? I'm certainly surprised by that too! Wow what a way to end this series. It has plenty of action, love, surprise, suspense, humour and an ending that will leave fans of this series satisfied, I think. This series is written so well that you feel as though you're immersed in this world while you're reading. The imagery is so well and the emotions are so well conveyed that it makes you laugh and cry while being an extremely enjoyable read. I will miss these characters as their world was a very enjoyable experience for me and I'd love to hear more but all good things must come to an end. I won't say much more, you get the point, I LOVED IT! So go and read this series now, you will not be disappointed. 5 brilliant shining stars!
