As an artist, color is a thing of magic in my life. Color creates shapes, forms, and feelings in the

artworks I paint. Laying color onto a blank page is when I feel closest to true magic, when I feel happiest and most relaxed, and it's through what I create that I share my love of magic with the world. Through my coloring books I want to share that same magic with you. The artworks in my books are based on my completed paintings, which I have painted over the last ten years as a professional artist. I have created the coloring designs to be intricate and detailed but still fun and accessible. There is something for lovers of meditative detail while simple enough to not be overwhelming for younger colorists. When designing my books I decided to print them with two copies of each design, because I know as an artist there are always so many possibilities! I wanted to give everybody the chance of a do-over with every design. Try a different medium, or a different colour scheme. Or a chance to share the magic with a friend, child, parent, sibling. Because sharing your creativity and joy of color is the best magic of all.

Love these books...only thing I would change is to make the paper a tad heavier...love how they give you two sets of the pictures.

This is a book of very pretty adult fairies (female and male) designs along with their devoted and loving companions. They are shown with their dragons, gargoyles, and, in a number of designs, the adult fairies are holding one another in loving embraces. There are 25 different designs, however, what is great is that this artist provides 2 of each design, so you have a total of 50 designs to color (or to share depending on your mood.) As with the previous book that I have by this artist (Enchanted), the designs are quite elegant and have a great deal of detail in them. There are several "nudes" where hair and whatnot cover up the strategic areas so that the individuals are not technically nude. The designs flow without harsh corners or many straight lines. The designs are printed on one side of the page with the back left blank. The paper is the thin white that is typical for CreateSpace publishing and is not perforated. The binding is glued rather than sewn in. A few of the design merge into the binding, so removing the page might be a tad difficult without losing some portion of it but for the most part, the portion that would be lost is not essential to the design. The paper is fairly thin and all markers and gel pens leak through. As the back of each page is blank, you can put a piece of card stock or really heavyweight paper under the page you are working on to keep ink from ruining the rest of the book. My coloring pencils worked well with the paper.

I'm in love with the book

Really had a good time with this artist. Her creativity is fun!

Although Selina's books are called "adult coloring books" I bought this one along with 4 others (5 total) as Christmas gifts for my 7 year old who is very creative & artistic. I wanted something to inspire & challenge her more bc she & I both agree that kids coloring books are pretty much all the same cartoons with no vision. After receiving the books and reviewing them to make sure they would be appropriate, which they absolutely are, I found them to be absolutely beautiful & the perfect gift for her. When she opened them on Christmas she fell absolutely in love with them, and even better is that they have inspired her. Not only does she love learning how to color them like an adult artist (with blending, contouring, shading, ect.), but Selina has inspired & challenged her to learn how to create on a higher level with her own drawings, paintings, and so forth. I also love her coloring in Selina's books. I suffer from many health issues, and so I have found that whenever I get stressed or anxious I ask my daughter if I can color in one of her books (which she always says yes). I have found a new outlet coloring her beautiful drawings. They help me relax and clear my mind of whatever is happening within and around me. An even better thing about Selina's books is that there are 2 of every drawings in each book so my daughter & I can color the same picture together yet separately when we want and see how different yet beautiful we can color them.

Great coloring book! has two copies of each picture so that you can recolor if you choose. They are one sided so you can use multiple mediums to color with. These are the prettiest fairies I've seen and I'm enjoying coloring them! I've included a picture that I have about 75% finished.

I love this book! I am really enjoying coloring the beautiful artwork that Selina has included in her book.

I have all the books in this series. Selena Fenech is a fantastic artist. I love the way the faces are large enough to really work on that shading and highlighting. Just love the picture choices!!!
