Customer Reviews

I thought it will be a very nice story at the start it's kind of so and so. Reading it kind of boring and whatever

Short but nice. Still a little predictable and short. I would like to read more in the hopes that it changes and gets better

This book promotes seems to promote groping and even threats of rape. I don't know what the theme to this book is but it is non consensual and I struggled to even finish this first volume.

Short, and sometimes hard to follow, But the story is interesting. The art is also very well done. I think the way the author makes her thoughts and daydream scenarios differ though is complicated and too much work to decipher.

Some decent art, but why make erotic manga if you're not going to go all the way? You've got to know people are just skimming for the sex scenes.

Oh I just found it a bit boring and unpredictable as well to me the characters were dry but hey it was worth a try if you catch my meaning
