The Gourmet Toaster Oven: Simple And Sophisticated Meals For The Busy Cook

Synopsis

Simple and Sophisticated Meals for the Busy Cook – In Lynn Alley's kitchen, toaster ovens aren't just for browning bagels or warming up frozen pizzas. The best-selling author of *The Gourmet Slow Cooker* has discovered yet another unconventional and imaginative way to prepare gourmet meals at home. In *The Gourmet Toaster Oven*, Alley reveals why the toaster oven is an ideal tool to create mouthwatering meals with minimum effort. Toaster ovens are quick and energy-efficient, and provide additional oven space for side dishes when preparing large meals. In this beautifully photographed book, Alley offers fifty gourmet breakfast, lunch, appetizer, side dish, dinner, and goodie recipes. Dishes include Coffee Cake Muffins, Southwestern Jalapeño and Red Pepper Scones, Macaroni and Cheese with Tapenade, Yogurt Baked Chicken, Beef and Vegetable Samosas, and Chocolate Lava Cake. This handy book also offers numerous surprising entrées – who knew you could grill a steak in a toaster oven? – sized for one or two portions. To complete the gourmet experience, Alley offers wine and beer suggestions for many of the dishes. Tips on buying and caring for a toaster oven take the guesswork out of acquiring this useful gadget. Using fresh, high-quality ingredients and influences from global cuisine, Alley crafts sophisticated recipes that, with the help of your toaster oven, are simple to prepare and divine to experience.

I wanted a book that would help me make better use of my combination counter top oven. The recipes are really good and the portions are perfect. I plan to make good use of this book in both my full size oven and my countertop. Although my goal is to not use the big oven if I don't have to. The author suggests use of a food processor in many of the recipes which, if you have one, encourages the use of an appliance that often sits on the counter unused in many kitchens. If you don't have one, consider getting a small 3 to 7 cup model. They are affordable, take up less space and very quickly become indispensable on a daily basis. I'm happy with this intelligently written recipe book.

I gained a brand new respect for my toaster oven when I received this book entitled: *THE GOURMET TOASTER OVEN!* I had no idea the possibilities and capabilities I had in my kitchen. This adventure is going to liven things up a bit, too, and the big electricity-guzzling oven can take a needed rest.

I bought a toaster over at Costco after a friend said she bakes regularly in hers. I'm one of those people who can't just go at things halfway. I like the reviews of this one the best. I appreciate the author tells what type of cookware she uses for the recipes, as I have similar pieces and didn't feel the need to buy more. My vintage cookware works very well for the recipes and toaster oven. I am not an expert on wine, but nice touch to suggest wines as well. And the recipes are for one or two. Another cookbook to keep in my collection.

Good little book....but the cookware they recommend costs a FORTUNE!!

Great book! Each recipe I have tried has been a winner so far!! Can't wait to work my way through the book!! Wish it was a little more up to date for a new oven like the Breville Smart Pro. But there doesn't seem to be anything out there on the market that includes the slow cook feature it has.

My used copy of The Gourmet Toaster Oven arrived quickly and in pristine condition. The manual that came with my little oven wasn't very complete, but this adds all the information I needed to make use of this simple, but versatile countertop appliance.

Disappointing. This is mostly about baking bread in the toaster oven. Wish I could have had a look at contents before I ordered it. I'll probably use it as a gift for someone who eats bread rather than paying to return it.

As with the toaster oven cookbook, the recipes are easy, simple and fantastic My husband is a meat & potatoes guy and these do the trick. Cheryl R.
