Certification And Core Review For Neonatal Intensive Care Nursing, 5e

Synopsis

Get ready for your neonatal intensive care nursing certification exam with the only review developed in collaboration with three leading nursing organizations! From AACN, AWHONN, and NANN, *Certification and Core Review for Neonatal Intensive Care Nursing, 5th Edition* prepares you for your examination with hundreds of high-quality study questions and realistic test simulation. Based on the latest test plans of the AACN's CCRN®-Neonatal exam and the NCC's Neonatal Intensive Care Nursing (RNC-NIC) exam, review questions cover the changes to the Core Curriculum and reflect the latest evidence, essential knowledge, and best practices. New to this edition are three new chapters and 225 completely new review questions. This powerful study tool offers unparalleled preparation for your certification exam! Endorsed by the three most authoritative associations in neonatal intensive care nursing: the American Association of Critical-Care Nurses (AACN); the Association of Women's Health, Obstetric, and Neonatal Nurses (AWHONN); and the National Association of Neonatal Nurses (NANN). A Realistic exam practice is offered through 675 total questions that mirror the certification exam content, the multiple-choice question format, and the distribution of content. Answers are provided for each question, accompanied by rationales and references, to enhance your understanding of the material. Online flexibility allows you to organize review questions and test format by your preferred examination, either the AACN or NCC. A Online exam simulation - included free with each new copy of the book - mirrors the test-taking experience with an interactive, timed format. Customized study lets you choose whether to work through online questions in Study Mode or Examination Mode. Online remediation includes rationales for both correct and incorrect answers, and in-book remediation provides rationales for correct answers. A compact, portable size makes the book easier to study anytime, anywhere.

Customer Reviews

I ordered the kindle version and am pleased with the content of the book, however there is no way to get the code to access the online content and exam practice sessions although the ad says the ability comes with the kindle version as well. The online content is one of the factors that make this book so worthwhile. The kindle version is only a fraction of the study material without access to the online content yet is the same price. Very disappointed that I will have to buy the print version now.

thanks

The book is rather very thin. They do offer more questions online but I wish the book itself had more questions. Other than that, I think it does the job as a study material.

For the price paid, I expected more questions/info. I would not recommend.

I returned this. There is not enough questions and the explanations are not in depth. And the price is ridiculous.
