# Education And The American Indian: The Road To Self-Determination Since 1928

## Synopsis

First published in 1974, *Education and the American Indian* has been widely praised as the first full-length study of federal Indian policy. This revised edition brings the book up to date through 1998 with the addition of analysis and interpretation of trends and policies that have shaped Indian education in the 1980s and 1990s and will persist into the twenty-first century. In looking ahead, one Yankton Sioux forecasts that "within two generations we will see some of the most educated people in the world and they will be on reservations." How such an optimistic assessment might become a reality is one of the major themes of this revised edition.

## Book Information

Paperback: 344 pages

Publisher: University of New Mexico Press; 3 edition (August 1, 1999)

Language: English

ISBN-10: 0826320481

## Customer Reviews

"A sympathetic yet objective account of the vacillating policies and attitudes affecting the education of the American Indian. . . . Based on extensive interviews as well as archival and published sources, the book traces the shifts from assimilation to termination to self-determination."A valuable contribution to the study of Federal Indian policy and administration that will be useful to anyone with a serious interest in such matters.A solid history of American Indian education in the most critical years of the twentieth century. It should be required reading for all of those Indian and whitewho seek to influence the future direction of educational policies.A sympathetic yet objective account of the vacillating policies and attitudes affecting the education of the American Indian. . . .
