Paul Allen is Associate Professor in the Department of Recording Industry at Middle Tennessee State University and co-author of *Record Label Marketing*, also published by Focal Press. He is also a frequent lecturer at other universities on artist management and other music business subjects. His career work has included radio, TV, political management, and the music business.

It's an excellent overview for aspiring artists and managers alike, and it's full of advice and wisdom. Anyone studying this business would do well to begin their focused education here, if only to establish a working vocabulary for the industry. The end of each chapter provides an extensive list of resources for continued reading as well. If you read this, also read the books listed in the resource section of each chapter for an extensive self-education. There's nothing quite like a common vocabulary for efficient communication between all the facets of the music industry.

It's exactly what I expected! Very broad information and the required knowledge to managing the career of an artist for every self learning and determined manager!!! I advise it extremely!
