## Customer Reviews

Founded in 1977 in Munich, Nelles Verlag publishes folded road and travel maps in color. Nelles uses special, easy-to-fold paper that allows thousands of refoldings without fraying. Nelles maps are highly readable, detailed relief maps with major roads and point-to-point distances clearly indicated. The maps include highly useful legends; city maps show tourist features such as hotels.

I used this map for a bike ride that crossed from Bali to Sumatra. This map I would rate a bit higher than the Sumatra map as the cities listed were the cities on the ground, names were correct and everything. If you're using this for a bike trip, when using the smaller roads (which is imperative on Java) this map shows some but not all, so many times you come to an intersection that is not on the map.
