Connecticut/Rhode Island Atlas And Gazetteer (Delorme Atlas & Gazetteer)

Synopsis

Wouldn't it be nice to always have exactly the right kind of map, whatever your needs may be? You will, with the uniquely versatile DeLorme Atlas & Gazetteer Series. These topographic atlases cover individual states with the most comprehensive detail available, including back roads, backwater lakes and streams, boat ramps, forests, wetlands, trailheads, campgrounds, public lands, prime hunting and fishing spots, and countless landmarks and points of interest. You'll also find a wealth of information on everything from family outings to wilderness adventures. The Atlas & Gazetteer is ideal for outdoor recreation, business travel, home or office reference, and countless other uses.

Customer Reviews

DeLorme has been directly responsible for many of the major technological advances made in the mapping industry over the past 30 years.

I've found these to be the best. As an avid motorcyclist seeking the challenges of tarmac, I just look

for the squiggliest lines and try to get to them. I really appreciate knowing in advance whether I'm climbing a mountain or squeezing into a narrow gorge.

DeLorme publishes very decent atlases, including this one of the two smallest New England states, Connecticut and Rhode Island. The maps in the book are at a scale of one inch to 11 miles, and the detail is fairly good outside downtown metropolitan areas. Certainly, the map sheets are good enough to anywhere a driver might need to go. Not necessarily useful for off-road navigation. The atlas includes a gazetteer and listings of parks and recreation sites. Recommended.

Unbelievable and disappointing that there is no close up street map of Newport, RI, a major town, a huge economic hub, historical interest, etc. Description should just disclose what's included. Spotty detail. I just expected much more from Delorme, a stellar map publisher. Good map of Providence however.

Thank you!

Unlike atlases for all other states, this one has blurry images. It looks like the publisher first created the images, and then upscaled them for some reason, but it created blur around all lines.

Missing detail for side roads outside of the major cities.

use these maps to find unpaved roads particularly in state parks. like all map books it is sometimes hard to follow at the margins. that said the info is all there and very helpful

I purchased this for my son and his family - they live in New Hampshire - so they could check for places to take my grandson to see in Connecticut. The Atlas gives the loads of information as well as where to find things.
