# The Toilet Trained Cat: Train Your Cat To Use The Human Toilet... And Never Scoop Litter Again

## **Synopsis**

Love cats, but hate scooping litter? Cats are exceptionally intelligent creatures -- so you'd think they'd have learned how to use the toilet by now! It's a wonder that we still allow them to go in litter boxes and stink up our homes. This book is your step-by-step guide on how to properly and safely train your cat to use the human toilet -- and live completely litter-free. - Stop scooping and discarding your cat's waste every day - Save at least \$175/year per cat on litter - Eliminate the awful litter box odors in your home - Stop your cat from tracking her dirty, litter-contaminated paws all over the house - Help the environment by keeping used cat litter out of our landfills

Aston Lau has a degree in Computer Science and a minor in English from the University of British Columbia. He has worked as a programmer, program manager, designer, and writer. He is also a cat lover who really, really dislikes scooping the litter box. He currently lives in Vancouver, British Columbia.

This book is exceedingly helpful for anyone interested in toilet training a cat. It took me about 2 months to train mine using the method in this book, and it was a lot cheaper (and less of a headache) than ordering one of the "kits". The author has a lot of helpful tips and wisdom to share, I've used it as a reference for issues other than just toilet training.

It took longer than the book suggests for my stubborn adult cat, but by following the instructions in the book, going very slowly from 1 step to the next, and being persistent, I trained my cat to use the

potty.

Not an easy task
