Stop Hair Loss & Ensure Hair Growth: Reasons, Myths, Realities, Easy Tips And Treatments

Synopsis

It goes without saying that hair loss is a problem which is faced by people all around the world in varying degrees. Most people don't pay attention to it until it is too late. Hair loss is a distressful experience which can shake one's self confidence and change a person's appearance forever. Hair loss can be triggered due to a variety of reasons. The reasons may be associated with body diseases like eczema, due to medication like chemotherapy or unhealthy lifestyle involving unhealthy eating, smoking, depression and stress at the workplace. It has been observed that men tend to lose hair at an early age than women, but due to hereditary factors it can be observed in some women too. This book is an attempt to make the reader understand the common causes of hair loss, to dispel some myths, suggest some easy tips and herbal treatments to control hair loss and stimulate hair growth. The book discusses the following topics in detail.

Causes of Hair Loss
General Hair Loss Factors
Myths and Realities about Hair Care and Hair Loss
Care and Treatment
20 Natural Herbs to Control Hair Loss and Ensure Hair Regrowth

Customer Reviews

Well written book with lots of emphasis on finding the cause of your hair loss and then target to overcome it and grow hair. For every condition as the root cause is important and once it is found you can heal the condition very easily. This book provides the list of causes and the probable ways to stop them.

This was a very nice read. I purchased this for my brother who is starting to have trouble with hair loss (it runs in the genes). I really enjoyed how the author explains various reasons for hair loss as it was very informative and gives clear explanations. The author also goes into different methods and techniques to manage hair and promote growth as well as suggests various natural herbs that help promote hair growth. All in all I found it clear and concise and very well written. My brother has already begun to practice the techniques learned from this book! Highly recommended :)

These methods are totally bogus and will not save your hair! Talk to a dermatologist or read a book written by an author with real medical knowledge. Many of these products can cause harm.
