I am in a Bible Study group that is using this Life Change book on Ezekiel as their guide through this book of the Bible. Prior to this we have done many studies using a different series of books to lead us through various Bible Chapters. I have to admit I was quite tired of the other studies and was looking forward to a change in format. And I have been pretty happy with the Life Change style of presentation. I find that the more salient items are more carefully delineated and, in general, I find the Life Change format to be interesting and easy to understand. Interesting asides are introduced and high points are brought to the fore. My biggest complaint about the other series, and about Bible Study books in general, is that the questions, and points to consider or discuss, tend to be redundant. I gather, that this is to make certain that the main points are well understood. So, I still have the same old ax to grind...there is a lot of redundancy incorporated in this book, but it does not seem to be as extreme as other studies that I have seen and used. These authors do seem to try to incorporate fresh ideas into their work. So, I am well pleased with this and do recommend it to others who are in a study that is an overview of the Book with interesting details included along with major points and ideas that any general student should know. I accept that some harping on various points must be done as we are not necessarily scholars, but your garden variety of "weekend learners."

I ordered this book this morning and the sample was not what the book was like... Can I get my money refunded?
