this cook book is BEAUTIFUL! The pictures are full page and colorful, diagrams are well illustrated and labelled. My only issue with it is that you need to have at least a basic understanding of baking to work with this book, otherwise you might get lost and end up with something that looks completely different than the pictures. It wasn't a big issue for me because I bake a lot, but this is definitely not beginner friendly.

This is a beautiful book containing classic pastries like Paris-Brest, Napoleons, and macarons. The architectural drawings of the pastries help you understand how they're put together, and the recipes are extremely clear and well written. Will you make pastries with an average of six layers of things that must be combined, cooked, and constructed? Maybe not. Nonetheless, you'll enjoy this coffee table book on pastries and appreciate the classic patisserie much more when you eat it.

I am a professional pastry chef and I have to say this is one of the best pastry books ever written. Just beautiful.

Awesome book, great addition for aspiring patissiers

I am so in love with this book! It's beautiful. It's as if someone asked me personally what I wanted in a cookbook and magically make it happen!

One of my favorite cookbooks!!!

gorgeous book!

This book was purchased as a gift. It is quality printed and looks great. I didn't experiment with the contents of the book as it was a gift, but the recipient seemed very pleased with it.
