The Franchise MBA and this accompanying workbook were the best resources I have found in my franchise search, and I have read or skimmed them all. Working through this workbook and reading the companion book has saved me hours and hours of time and confusion as I look for the right franchise. The best money I have spent in my franchise search process by far. Highly recommended.

If you're interested in a franchised business, look no further and buy this book. Nick Neonakis

leverages the top professionals in the industry to paint a portrait of what you will need to know as you launch your own personal journey into franchising. There isn't a book that I've read that's easier to understand, completely supported by an infrastructure from Nick's franchising experience and relationships he's built. As the year ends, I would consider this an A+ for stocking stuffers! Bravo Mr. Neonakis!

Reading this with The Franchise MBA has allowed me to improve my franchise exploration process and have a clear guideline of how to search for the right franchise. I truly look forward to comparing my options, examining my financial picture and outlook, and making this business model come alive and bring me success. We need more books like these- informative, concise, and practical.

This book is simply an organizational tool for buying and understanding a franchise, but it does so in a very different fashion. I love the tid-bits of knowledge thrown in to supplement what this tool provides. Definitely worth a buy for those pursuing this lifestyle, and I love the military history that was molded in.
