Customer Reviews

I have enjoyed working my way through this unique view of the Christmas story. The imaginative and experiential writing of Ted Loder once again invites us to look with fresh eyes at possibilities.

Good for children.

LOVE this book! Ted Loder brings Christ's birth to life, in these short narratives about those who may have been "on the scene". I highly recommend this book!

One of the best books for Advent I've read in a long time. Great quality for a used book, just like new! Great gift for the Christmas season.

Some good reflective material but it didn't end up being what I needed for the project I had in mind.

"Tracks In the Snow" is a delight as our eyes open a little wider each time we return to enjoy Ted Loder's brilliant collection of nativity stories and modern fables. As the wood shavings fly, we find ourselves puzzling with Joseph in his loneliness as he wrestled with the mystery of Jesus' birth; we sing from the rafters in the Bethlehem stable with the swallow, and grumble with the hired hand tent-bearer. And what about the day we smashed the family heirloom jug? This enchanting and challenging book is a must for this and all future Christmases.

It is a wonderful journey with a different perspective. Will be enjoyed by all ages. I like the daily format.
