Customer Reviews

Great to have. Greater if you can use it on the floor! Good resource.

Did not think it was helpful... too much\$\$

I don't like the book to small letters

Quick and easy to use, wipe off pages, great pictures. I'm in an FNP program and this is always in my pocket!

very helpful

love it

very essential study materials.

I should have purchased the LPN pocket book. It was too detailed into assessment, for beginning PN clinicals, I needed something broader. But I am keeping it on hand for the time when I move up and need the physical check off in this much detail!
