Customer Reviews

Taking up too much Carbohydrates with my every meal is one of my worst weakness but I really can't take it to not have that much because my system is always looking for it. I am so thankful that one of my love ones shared this recipe book that greatly helped me a lot to manage my obsession when it comes to carbs. I love how the recipes were laid for me to easily follow the steps in preparing each and every one of them plus a lots of different recipes to choose which is great because it won't easily spoil me with less carbs in every meal I am going to take.
