Customer Reviews

The Blue Guide is designed to serve travelers who prioritize the history and archaeology of sites. The ground plans are particularly helpful. The book covers well-known sites, e.g. Petra, as well as places off the beaten track, e.g. Qasr Burqu. The directions are usually clear. There were only a few times I was not able to match the directions with what I saw, which may have been caused by factors beyond the authors' control. The newest edition contains accurate and up to date information, even for the opening hours of the Jordan Museum. This is the best guidebook I have ever used. I would recommend it to anyone serious about history and archaeology.

A great book, with lots of information. As an e-book the pictures and maps were not as good as I would have liked.

Very informative
