I really enjoyed this book. I found the entire notion of tantra and tantric massage fascinating. I had some concept of the essential oils, but it was good to get some reinforcement from the reading. I can definitely see how this is a stress reliever and may be helpful to older men. I am 50, so I am middle aged, not old ... smile. It was good to read about the various massage techniques. A video would be nice. The video may have been a bit much, which it came to the genital massages. After reading about men and women tantric massages, I am inspired to give this stuff a shot. I would

recommend this book for anyone interested in either tantric massages or simply another way of being intimate with your spouse.

The book gives some nice techniques that are realistic and I will try them out. I was not familiar with the specific term "tantric massage" but I am glad I got this book. This will give you a clear understanding about our first and most powerful sense, "touch." It explains how deeply spiritual this form of erotic massage is, as it transcends the physical form. It will also take you back some 7 thousand years and give you some history on the subject. I enjoyed this read as I was able to learn many aspects of women that I may have overlooked before. I highly recommend!

Tantric massage is an erotic massage and it requires the mind and spirit of an individual to be free. I felt like in a state of trance when trying out the technics with my spouse after talking to her about it and making her read this book with me. We followed the instruction given and found my self in another world of my own with no worries at all. it was so relaxing and created awareness about myself.

I think that a sexual intimacy is more powerful and more pleasing when we have a spiritual connection with partner and not just a physical connection. This is a great guide to lovemaking, tantric massage can increase the pleasure during sex. Develop a spiritual bond with your partner. This book can help you!
