Customer Reviews

For those wondering , this series is a reprint of Pendulum's "Pocket Classics" which came out in 1984. I can confirm that the audio cd is. Word for word dramatized narration with voice actors, sound effects and music. And is the original audio that was released with the 1984 pocket classics on cassette tapes. The story is easy to follow and conveys the message of the original story. The read along book is in full color, and very well made high quality printing.

I bought this version of Tom Sawyer thinking that it would be the original story accompanied by illustrations, it turned out to be entirely a comic book based on the original story, my daughter enjoyed it though and thought it was fun.
