Classic and Sports Car (UK), October 2006
Book of the Month. "Refreshingly free of factual errors | Information in an easy-to-read-and-stow format | Phenomenal value for money for an essential reference work."

Graham Robson possesses a worldwide reputation as a motoring historian, and has been close to the sport of rallying for many years, as a competitor, team manager, organizer, reporter, commentator and observer; in more than forty years he has never lost touch with the sport. Not only has Graham competed in many British and European events, he's also reported on marathons in South America, and acted as a traveling controller in the legendary London-Mexico

World Cup Rally. As a recognized authority on many aspects of classic cars and motoring of that period, he is the most prolific of all authors, with more than 130 published books to his credit. Over the years Graham has owned, driven, described and competed in many of the cars featured in the Rally Giants Series, and his insight to their merits is unmatched. Graham Robson lives and works in England.

Excellent. Covers models that an American car nut likely has never seen. Great effort, Graham Robson never disappoints!

This is an extensive detailed and accurate catalogue of British cars. A comprehensive review of all cars produced in this period it is a necessity for any serious student or collector. It is a reference book. I thought I was well informed but there are cars here that I had never heard of. There are no color photos or other trivial distractions...it's all black and white and facts. Lots of red meat.

The mother of all post war British automobile. Fantastic detail and completeness

I bought this book for my uncle. He loves it-

I absolutely love this book. I bought it for the reason that it took me back to when I was a boy in England and all the cars that were available then. This book is wonderfully laid out and the photos are amazing. I would recommend this book even if you are not a car fanatic.
