Customer Reviews

This is a very inaccurate map. Just returned from Malta and experienced first hand how poor it is. A "major road" turned out to be a single-track, pot-holed, frighteningly bad track suitable for four-wheel drive only. And that's just the beginning of how bad it is.

Nice map, but Malta is small and the many of the roads are more like paths. More detail insets would be helpful. Used it in conjunction with Apple maps and managed to find my way around just fine. I couldn't find a better map so I recommend this one.

Very well detailed map of both of the Islands ... I was very pleased with the excellent work put into it for the viewer :) It will be very valuable to use as we walk around Malta real soon :)

Excellent, thorough map that was with us every step of the way on our trip to Malta.

Excellent detail for a visit to Malta

Compared my 1943 RAF Luqua, Malta map with a new 2016 map. An island which has had humans on it for about 4000 yrs. Today the some 300,000 people still live on two small island about 20 x 25 miles. Here is where St Paul was shipwrecked on his way to Rome and converted the people to Roman Catholicism. I was stated there for six months in 1952 with the USN. Great island &

GREAT people!
