Big Oil In The United States: Industry Influence On Institutions, Policy, And Politics

Synopsis

This book explains how and why large oil-producing corporations have affected government institutions, energy policy, and politics in the United States and suggests how their influence can be reduced. Focuses on big oil's impact on U.S. government policy—regulatory, environmental, and fiscal—and analyzes big oil's political influence through campaign contributions and lobbying. Proposes methods that could be employed to reduce big oil's influence over energy policy. Presents current information relevant to university-level courses in energy politics, public policy, and state or local politics and policy as well as to practitioners such as government regulators, business persons, and NGO representatives

Customer Reviews

"Jerry McBeath's book could not be more timely. In the world's current efforts to deal with climate change, it is of crucial importance to understand the politics and public policies of oil, gas, and other forms of energy. The book is an exemplary study that makes optimal use of comparisons among American states and that also provides a model for investigations into the politics and policies of the energy sector in other countries." (Arend Lijphart, Professor Emeritus of Political Science, University of California, San Diego)"A superb book by a gifted and veteran political scientist who really understands American state politics. Big Oil is deeply probing, comprehensive, and especially well-researched. McBeath unpacks the complex political and policy cultures in which key energy

policy decisions are negotiated in our major oil and gas producing states. Highly recommended!" (Thomas E. Cronin, McHugh Professor of American Institutions and Leadership, Colorado College)"Jerry McBeath draws on three decades of studying the petroleum industry to write an encyclopedic analysis of policymaking. He offers numerous original insights such as those about industry capture of regulatory commissions and manipulation of Congressional procedures. Lengthy quotations and detailed examples give authenticity to events. Based on 200 interviews with trade association staff, environmental activists, and government experts, this is a scholarly tour de force." (David Howard Davis, Professor of Political Science and Public Administration, University of Toledo, and author of Energy Politics)

Jerry A. McBeath is professor of political science emeritus at the University of Alaska Fairbanks.
