Allan Fowler is the author of several nonfiction books for children.

My daughter is 4 and has been interested in the way people live in other countries. She cannot read, but I just read this to her like I would any other book. The pictures and story are captivating to her - she requests this book often. It has enough text to clearly explain the lifestyle, but not so much detail that a young child gets lost or loses interest. I'm looking forward to getting more rookie read-about books!

Kids in the classroom loved it.

Nice photo's really help children visualize life in the Arctic. Nicely done

Great non-fiction reader for Kindergarten/1st grade. Good information. Real photos.great for our arctic unit.

Wonderful photos and information.

Very good book for my special needs classroom, the pictures are great and the information perfect for these students. Loved it!

great grand kids loved it

This story was perfect for my class of students with special needs. It was very straight forward, with valid and legitimate- appropriate language and excellent pictures. I wish the book was a lot bigger for the students to be able to see better.
