ISBN-13: 978-0486281377

Product Dimensions: 12 x 9 x 0.3 inches

Shipping Weight: 1.2 pounds (View shipping rates and policies)

Average Customer Review: 3.9 out of 5 stars 7 customer reviews

Best Sellers Rank: #1,680,761 in Books (See Top 100 in Books) #57 in Books > Engineering & Transportation > Transportation > Ships > Passenger #1276 in Books > Engineering & Transportation > Transportation > History > Ships #3102 in Books > Science & Math > Technology > History of Technology

Customer Reviews

I chose this rating because the book was in great condition my son was very happy with it he said there was not a thing he disliked about the book thank you

Glad these are available for low price--poor graphics, spotty rather than encyclopedic coverage of subject.. not worth much if anything..

well done, was surprised at the number of new ships listed. still some of the more interesting ships weren't in the book, but a lot of them i'm sure have not photographys to publish. all in all a well done book.

If 1/3 of a page and one photo for each ship is enough info for you, this is an outstanding quick reference. I only wish the author had included a few significant ships of under 15,000 tons, and with the recent spate of very large new cruise ships, the book is slightly dated. A cross-reference list of sister ships might also have been welcome. No matter; this is still one of the most heavily-used

books on my shelf.(Note: this is a reprint of a review I first posted anonymously in 1999. Of course, it is now even more dated, and I wish that Dover and the author would merely issue a "Volume 2" which would cover the pertinent new ships since 1994.)

excellent product for those interested in sahios and shipping

Great gift for family member who loves ocean liners.

I think the book covers a lot of ships and liners, but is very poor in description. It only states basic characteristics. I have to admit I expected more...
