Customer Reviews

Maybe you've read about some of celebrities who've dropped massive amounts of weight on calorie restricted diets. One of the things you will read is they aren't starving themselves. Instead they are shifting to food that are LOW calorie and HIGH nutrient content. Many of them are using smoothies as part of that program after all how much Kale can you really graze on? Which is why I've been adding to my library of Juices, Vitamin waters and Smoothies. This book has several excellent recipes that are fast, filling and LOW CAL. Pairing some fruit with a lowcal vegetable mix will give you that taste you crave at a lower calorie load. Remember 8 oz of soda is 200 cal (technical Kcal) and water is 0. So making smoothies part of your program especially if you are doing it as a meal replacement is a smart way to cut your calories without the withdrawal experience.

I like the way the smoothies are split up into groups by their primary ingredient. I'm not so fond of avocado and in other books it can be hard to find smoothies without them. But in this one I just have to skip that section and I have a ton of other smoothies that are great. My favourites so far are the Coconut-Mango-Kiwi & the Sweet Blackberry and Melon - YUM! Loads of awesome suggestions!!

Avocado can be used for smoothie? It's the first time I heard this concept. I know avocado is very healthy but i always thought its nasty to drink it. However, this book provides lots of fun recipes with avocado in it - avocado apple and avocado banana etc. And broccoli orange smoothie really opened my eyes. I really liked how this book uses those healthy but nasty ingredient and make it yummy.

This is a healthy, full of flavor that I wanted to try. This book will give you numerous delicious green smoothies recipes. It is easy tips and healthy recipes before mixing up a green drink. I don't need to buy everywhere starting today. This book is superb! A great help to keep you fit and healthy. I highly recommended this book.

I loved the variety of different recipes to choose from! i recently got into juicing for better health and energy, this book is fantastic. My favorite recipe i tried was the cantaloupe grape smoothie, 5/5
