Best Sellers Rank: #1,927,919 in Books (See Top 100 in Books) #50 in Books > Travel > United States > Alaska > General #4201 in Books > Travel > United States > West > Pacific

Customer Reviews

I am a frequent Alaska tourist and have used several of the Eyewitness city guides in the past, so I was glad to see that they came out with this book. No one can touch Eyewitness for design and illustrations and their Alaska guide is no exception. Their maps are amazingly clean and functional. It is impossible to pick up this book and not get sucked into it. The guide is not as comprehensive as a Frommer's or Fodor's, but for me, who needs a listing of every restaurant and gift shop in an area. Eyewitness focuses on the can't-miss attractions and gives more than enough shopping and dining options to cover your stay in state. The information is in bite-sized chunks that are easily scanned and give a good overview to the areas you're visiting. If I had to say something against this guide it would be that it is so filled with photos that they need to be pretty small. When I flip through it and see these tiny images of areas I have visited, they just don't do justice to the scope of the landscape. But then, maybe this will just help you appreciate Alaska when you are there in person. If

you or someone you know is going to Alaska for a vacation, get them a copy of this book. This is the best guide to the entire state I have found.

The guidebook contains a lot of good illustrations, pictures and maps. However, detailed information on the places is limited, and definitely not sufficient for me to plan the full trip. I used the book together with the LP Discover Alaska which I prefer over this one given there are more details and maps are also great. But in both cases you will need some more information, I ended up planning most of the trip over internet and just used the books as indications on where to go. All in all, it's a good book to learn about Alaska but it's not enough to plan a trip in detail.

The Alaska (Eyewitness Travel Guide) arrived in excellent condition. As a used book one could not even tell it had been used. It is an excellent book and if anyone ever plans on driving all over Alaska as we did, this is the book to purchase. The information within the book would be extremely beneficial. I had borrowed the book and as I was getting ready to return it, I decided that I needed to purchase my very own. So I did!

EYEWITNESS Travel Guides are the absolute BEST for any country, state or city. I find the more inclusive state or country guides the best. Hard sturdy binding, glossy pages withstand any abuse, won't fall apart after lugging around in a stuffed valise or lazy back-pack, full of photos, and the most up to date information on lodging, restaurants and attractions. Though a bit pricey compared to other travel guides, WELL worth it. It is so handy, you find you will use it over and over even when you are familiar with where you are going.

I love this series. This book was great and I used it to plan my trip to Alaska. Easy to read. Gets to the point. Lots of pictures and great maps.

I have always loved the DK series for the great photos, which inspire me to look up new locations. I used this one mainly as a backup to TripAdvisor for planning.

Exactly what I wanted for a good price and delivered on time.

Excellent!
