Customer Reviews

I originally bought the first book in this series for my nieces kids, but admit I've read them all. Fun, fast paced, and this one was actually hard to put down, I pretty much read it within 24 hours of getting it. If you want a series that you can hand to a young person (or us old guys) that you don't have to worry about sex and profanity, but with action stories that will keep them interested, check out this series.

It came in on time and in great shape. Kudos to Bear for writing for kids who love action and adventure to keep them interested in reading.
