Customer Reviews

NATIONAL GEOGRAPHIC KIDS inspires young adventurers to explore the world through award-winning magazines, books, website, apps, games, toys, television series and events and is the only kids brand with a world-class scientific organization at its core.

Interesting!

I had originally posted review that this was nonsense book. I wasn't even sure I was going to give it to my grandson I thought it looked so silly. Well decided to give it to my 7 year old grandson and he loved it! Ran to couch and kept reading, commenting on the facts he was reading. He absolutely loves it!

Gave it to my 6 year old grandson and I do not believe he has taken his nose out of it since he received it. I gave it to him and then we went out to dinner. He took it to dinner and read it there. He is now telling me the next one that he wants. Would definitely recommend to anyone.

This is a nonfiction book with facts in it that kids love. As a reading teacher I keep it on my table. When kids finish their work they often pick it up and look at a couple of the entries because they are short enough to read in a few minutes. The subjects and the photos are very tantalizing and they enjoy the information a lot.

as promised - item & delivery

I am a 2nd grade teacher. I bought a set of Weird but True books for the last few weeks of school. My students were happily engaged in reading and sharing facts all day, every day (at the end of the year)!

This is a cute book to have. I love trivia books and I'm going to buy all of them in this series. This book is well worth buying.

My 8 year old loves it. She found it in school library and asked me to get it for her. Great way to expand the knowledge of your kids beyond the regular stuff taught in school. Makes them inquisitive and curious to learn more.
