Stephen Johnston, has been narrating and producing television, radio and audio Bible products since 1981. In the past three decades, over 100 million cassettes, CDs and DVDs of his narrations and productions have been sold worldwide. Awards for his narrations include the Emmy, New York Film Critics Award, the Thomas Jefferson Award from the Freedoms Foundation of Valley Forge, the National Silver Microphone Award, and the Army Commendation Medal for work in the

American Forces Radio and Television Service while in Army.

I really like the NKJV but it is difficult to find it on audio for free. I was really looking forward to receiving these mp3's, but I was very disappointed after listening to them. Besides having to get used to a new narrator (I usually listened to the ESV on YouVersion Bible app until they upgraded recently and now have problems with audio), Stephen Johnstone reads much too quickly. I haven't listened to this audio version since I purchased it a couple years ago. I tried a few times, but I just couldn't do it. He reads so quickly, like he's trying to blow through the Bible as fast as possible. And I don't like his voice. But really it's the pace that he reads at that did it for me. Overall, a bad investment. Good thing it only cost me \$19.95.

I was disappointed by the fact that the DVDS do not contain the whole bible. The New Testament actually ends after the book of Romans but the writing on the DVD says from Ezekiel to Revelations!. I think that is tantamount to lying...

love the audio bible, but this CD set cuts off words and part of sentences at the end of the track and CD. really poor editing. I called the publisher and they never responded.

Listen to audio whenever I can, and it is high quality sound.

Great for the most part. But each recording seems to cut off a second or two before the reading is done. May be just a kink in my copy.

Good price & fast shipping! Thank you!

I like listening to the bible while I am working in the house or in my art studio, and even in the car. I'm trying to figure how to get this onto my MP3 player, but I am computer illiterate in some areas.

Just what i was looking for.
