Customer Reviews

Patsy Cline is one of My Favorite Country Artist (One of A Kind). I'm a beginner on the Guitar and I can't read music so I look for easy Tab Books. When I say easy Tab I mean the complete melody with string numbering for fret and string to be played. Some books state easy tab but aren't. In any case this one is and most of Hal Leonard books if they state Tab are tabbed. I've got about six months of Guitar practice time (3 or more hours /day) and I'm in my late sixties, so let's face it I'm likely slower than some on the learning curve. My point being this is a good book for beginner, but some songs will require a bit more practice to master because they require good timing and if you're not familiar with the songs they will be more difficult. At my current skill level I like to see the minor chords mixed in that this book has, it makes the song sound better and offers a bit more challenge. Of the 27 songs I'm not a fan of about 10 because I feel they would require a more advance arrangement and higher level of playing to sound good, but overall I'm very happy with the purchase and know it will

provide enjoyment for some time. I recommend for beginners with at least 3 solid months of practice providing they are a fan of the music.

thanks. very good

Did not know what book it was a revision of. Would help if we could view the table of contents. I was going to purchase TWO books, and both could have been helpful to me, but now I have two the same.

Good book for beginning guitarist that love Patsy Cline music.

Songbook. Received as advertised

I wa hoping to learn the song Crazy but the score end up being Willie Nelsons version. Have not picked up the songbook since.

Great

This is a very good selection of Patsy Cline's songs . It is easy to read....easy to play...enjoy the music.
