Dynamics Of International Advertising: Theoretical And Practical Perspectives

Synopsis

Dynamics of International Advertising brings to light the unique challenges marketers face in developing and implementing successful campaigns globally. With a balance of theoretical and practical perspectives, this second edition takes the reader inside the dynamics of advertising as it functions within the international marketing mix. Updated with the most recent statistical information as well as current examples and case studies, Dynamics of International Advertising addresses the key issues that advertisers must keep in mind in creating effective communication programs for foreign markets: cultural norms and values, political and legal environments, economic policies, social contexts, and more. Both the process and product of international advertising are addressed, from research and strategy development to creative execution and media planning. Ethical concerns are highlighted as well. This is an ideal textbook for upper-division undergraduate and graduate students in specialized courses dealing with international advertising or marketing. It is also an effective supplemental text for introductory advertising, marketing, or mass communications courses seeking to expand coverage of the international dimension. The book should prove useful to practitioners of international advertising, whether on the client side or within the advertising agency; researchers of international advertising and marketing will also find the text a valuable resource.

Customer Reviews

«The second edition of this great book brings a wealth of updates and insights into international

advertising. Barbara Mueller has a knack of drawing you in so that you find yourself unable to put each chapter down. One of the great strengths of the book is that it provides context, be it historic, societal or marketing, along with considerable depth of knowledge.Ã Â» (Douglas West, University of Birmingham) Ã Â«Ã¢ ãœDynamics of International AdvertisingÃ¢ ã„, is a truly outstanding book. The author does an outstanding job of providing very current examples of international advertising practices. There is also a wealth of recent data in the book and the author does an excellent job of providing context for [the] many interesting tables and exhibits in the book, something that is often lacking in discussions of international business. The author also provides a wonderful overview of current trends, providing deep insight into what academic research and practitioner actions in these issues tell us about international advertising.Ã Â» (Charles R. Taylor, John A. Murphy Professor of Marketing, Villanova School of Business)

Barbara Mueller is Professor of Advertising in the School of Journalism and Media Studies at San Diego State University. She received her PhD in communications from the University of Washington. In addition to a multitude of articles in academic journals, she is the author of *Communicating with the Multicultural Consumer: Theoretical and Practical Perspectives* (Peter Lang, 2008), and is co-author (with Katherine Toland Frith) of *Advertising and Societies* (Peter Lang, second edition 2010).

I purchased this book for my Graduate course.

may hauer-simmonds said: very broad book. I didn't like it at all. it doesn't say anything. you can find the same information in the internet.

Good book and good service! Thank you

The book speaks about characteristics, problems and strategic challenges in international advertising (with a balance of theoretical and practical perspectives). There are many examples of which elements advertisers must consider to create an effective communication for foreign markets (for example, cultural, economic and political local contexts). It's a very useful and interesting book, even for students that didn't study advertising or marketing at the university: in fact, contents are expressed clearly and in a thorough way.

Very interesting reading for beginners in International Marketing Communications. Tons of pictures and examples which I absolutely love!!!

The book came in brand new in a decent amount of time. No problems with this seller
