Customer Reviews

The first edition of this work was published in 1975 (under the title *Biographical Dictionary of Cinema*). More than 100 new entries have been added since the last edition, in 2010, including Amy Adams, Benedict Cumberbatch, Joaquin Phoenix, and Robin Wright. Thomson is not shy about broadcasting his very personal views on people involved in filmmaking, among them performers, directors, producers, writers, and translators. (As examples of the highly subjective nature of the work, the entry for Sir Kenneth Branagh includes the line, “Nothing suggests that Branagh is either competent or interesting when detached from Shakespeare,” while the entry for Jodie Foster sidetracks into an odd commentary on the provenance of her children.) Each person is listed alphabetically by surname, with birth and death dates (where applicable) and place of birth. Director entries contain a chronological list of film titles. Entries range from several paragraphs to a couple of pages. Readers need to come to the text with the awareness that it is less a reference tool than a

very readable collection of commentaries on a wide range of motion-picture people and their work. This book—•with its at times very opinionated perspective—•is suitable for most medium-sized and large public libraries, for both reference and circulating collections. Libraries owning older editions will want to replace with this version. --Rebecca Vnuk

"America has given the world Emily Dickinson, "Moby-Dick," jazz, Faulkner, Hollywood, rock 'n' roll, and this book." --Michael Robbins, Chicago Tribune
"The best book on the movies ever written in English." —•The New Republic—•
"Thomson proves anew that he is irreplaceable . . . His monologue has blossomed into an unlikely, searching dialogue about what to value in the movies—•how to love what—•,cs come before without nostalgia, and how to find the courage to demand more from the stuff being made right now . . . Deservedly treasured . . . One of the most probing accounts ever written of a human being—•,cs engagement with the movies.—•
—•Sarah Kerr,—• The New York Times Book Review—•
"Delicious. One of the best and most useful books written about the movies.—•
—•Edward Guthmann,—• The San Francisco Chronicle—•
"The Dictionary—• is not only an indispensable book about cinema, but one of the most absurdly ambitious literary achievements of our time.—•
—•Geoff Dyer,—• Sight & Sound—•
"A marvel . . . Eccentric, audacious, sparkling . . . Probably the greatest living film critic and historian, Thomson writes the most fun and enthralling prose about the movies since Pauline Kael.—•
—•Benjamin Schwarz,—• The Atlantic—•
"From Abbott and Costello to—• Crumb—•,cs—• Terry Zwigoff, David Thomson expertly caters the banquet of film history in the latest edition of this classic. One critics—• poll called it the best movie book ever; it also has some of the finest, orneriest writing in the English language.—•
—•Time—•
"Truly, maddeningly, gloriously subjective . . . Buy this book for a friend, and bask in the pleasure of knowing that you have incalculably enriched his life. Buy it for yourself, and book some quality time with one of the finest writers the story of film has ever had.—•
—•Saul Austerlitz,—• The San Francisco Chronicle—•
"[A] mad and magnificent opus . . . Thomson is a great rhapsodist of how film acts on his, and therefore our, imagination. . . . Close viewing, and the insights that spring from rapt attention, are what Thomson—•,cs criticism is all about. Despite its seemingly straitlaced A-to-Z format, the —•Dictionary—• is oddball and Borgesian, finding imaginative ecstasy in its encyclopedic tendency. The book crackles with epigram while often reaching for meanings that endow familiar subjects with a new reality. . . . It—•,cs an essential, loony, irresistible book, and scarcely a week passes when I don—•,ct submerge myself for an

hour or two in its labyrinthine marvels. — Richard Rayner, *Los Angeles Times* — “Essential . . . Razor-sharp reviews are often commentaries on both the filmmaker and the audience. . . . We’re always aware that we’re engaging with a passionate educated human being. Isn’t that more interesting and rewarding than marketing-driven Netflix summaries? Great critics are cinema’s most inspiring enthusiasts. Four stars. — Jeffrey Overstreet, *Books & Culture* — “Witty, expasive, convincing, honest, more than a little mischievous and, so often, absolutely on the money. Thomson’s voice is one of the most distinctive and enjoyable in film criticism. It leaps from the pages of this spruced up classic like flames from a bonfire. . . . Almost every page contains at least one unexpected nugget of information that you would struggle to come across by any other means. . . . However, the real value of this book lies not in facts, but in opinions. Thomson’s views are so shrewd, so exquisitely stated that, more often than not, they feel like thoughts you already held but were never quite sure how to put into words. . . . In a world awash with amateur pundits, the value of a genuine expert who knows his own mind has never been higher. . . . Dip into any entry and you will find irrefutable proof that his gaze remains as sharp as ever. For as long as there are films worth writing about, Thomson’s opinions will remain worth reading. — Benjamin Secher, *The Telegraph* — “The newest edition of David Thomson’s *New Biographical Dictionary of Film* is 1,076 pages long. It weighs a ton. And yet, it’s almost impossible to put down. — The New York Observer — “Invaluable and occasionally maddening. — Steven Rea, *The Kansas City Star* — “Skip the movie; read David Thomson instead. Addictive . . . his landmark work. You’ll see how erudite, generous, cheeky, elegant and fascinating Thomson’s writing is. Take any entry and it’s impossible not to want to read to the finish. — Kyle Smith, *New York Post*

I love reference books. They are the best for nightstand and bathroom reading. A good, solid reference on a subject you are interested in is a wise investment in time and money. This new edition of a long-time classic is, as the past editions have been, a sheet delight. Like the old potato chip commercial put it, you can’t eat just one entry. You will find yourself staying up later than you intended (or taking a lot longer to get ready for the day, etc.), but pfft. Who cares when a writer like Thomson is keeping you reading? He has not lost any of his edge, strong opinion, or ability to make

you laugh out loud. If you agree with his take, you nod your head at his wit and incisive writing. If you disagree with him, all the better. It's still enlightening and more often than not, a hoot. Not just everybody is listed here, of course, but then, not just everybody deserves to be. Turn on the side lamp, adjust the pillow, and expect to be tired in the morning.

Great, really enjoyed!

A terrific book, though not fully updated. Regardless, and despite largely subjective and some might think often wrong-headed commentaries, this is a splendid book to own. It is great fun to look up someone, find him or her there, and enjoy the thoughts Thomson shares. Agree or disagree.

Now I have all 6 editions of this excellent and useful book. Hours of browsing.

He likes movies I have never heard of and hates the movies I love but the book and his essays are fascinating.

wife loves it....need i say more

My husband loves any type of film and all the info on each one and was very happy that he got this book for father's day

One of the best of its kind about film. Not only full of facts but good insights into personalities and works.
