Customer Reviews

Parent- and child-friendly book. . . Essential for all public libraries and travel collections -- Library Journal

Our problem - didn't notice it was primarily for kids. Book seems fine for its purpose. I didn't read "fine print". guess we are too old

What a neat book. Not only will we use on our next trip to Florida, but we have found some things to do closer to home, too!

Over the years, this book has become one of my favorites. It's a beautiful story about travel, the hardships of parenthood, and modern family dynamics. I would recommend this to all.

In a former life, I supervised the compilation and editing of thousands of directory pages each year. So I know a bit about the problems and goals of such information-publishing. And this one delivers. Specific information, concentrating on its topic, consistently presented. Plus, a good portion of fun and advice. If you're hitting the road down that long stretch of I-75, this is a solid and worthy investment.

We just moved to Michigan and our family lives in Atlanta. This book provided excellent hints and tips on keeping our child entertained for the long trip. It is full of information for entertaining pit stops. Instead of searching for ways to distract our child, now we can take a quick look at this book and plan our trip easily.
