Each sequential drawing is Influenced by the fashion of that time. Beginning with the rise of Modernism in the early part of the 20th century these pages are inspired by the screen sirens of the "Roaring Twenties", as well as beautiful feminine faces from the 1930s and 1940s. There are plenty of feather boas and Art Deco jewels to keep you busy. Moving into the mid-century era of the 1950s through 1970s, this time is signified by accessories from cat eye glasses and scarves to peasant tops and flowing hair. • Finally, the last section of Glamourista highlights the "Big 80s", the 90s and now. The last two decades of the 20th century were all about fun the illustrations are over the top with geometric patterns and oversized jewelry. The featured trends of the the present include street fashion, sparkling jewels, fashion styling derived from cultures around the world, and inspiration from haute couture! Colored pencils are recommended, but markers may be used with blotter pages or card stock placed beneath.

Customer Reviews

Jennifer declared herself an artist in grade school and has never looked back. She graduated from University of Michigan School of Art and spent time studying at the Art Center College of Design in California, with a focus on illustration. Later in life, she received her master's degree in education. Since college, she has worked as a professional artist and educator for almost two decades. Jennifer enjoys drawing by hand, creating digital graphics and illustrations, and painting. She adores creating art in many styles and in various mediums with subjects such as animals, all things modern, and people. Jennifer's happiest days are spent outdoors with family, when there is plentiful sunshine!

What a fun and creative book. I also just love the tutorials the artist/author does online. She really makes it easy to vision what I can actually do (myself) to make a beautiful creation. Using violet as an accent color in the face, who knew? Opens my eyes to creativity by looking at those around me.

I love this coloring book! The theme and design are completely original and different from any other adult coloring product out there. The designs are so beautifully drawn, but not overwhelming to color. And I love that the author included a second set so you can try a design a different way. Great product!

If I had to choose one word to describe this coloring book, I would say "elegant". The images feature fashionable women (some in vintage hats and clothing), gemstone jewelry such as brooches and pendants, and all are sheer elegance. The cover image is a very good representation of the type of images you will find in this book. The images are printed on one side only, which is also really nice. This is a beautiful coloring book!

What a wonderful book! Great illustrations to color or scan and import to color Digitally! Either way, a great value for your \$\$.

Beautiful book, excellent quality. So much fun to color!

This book is absolutely gorgeous and so much fun to color! Great quality, beautiful designs and wonderful detail! You can use pencils or markers on it with ease.

O.K. JUST DIDN'T LIKE THEY PUT IN DUPLICATE PICTURES

Love the art and pictures, but the paper is of poor quality. I use Prisma colored pencils and it feels as if the paper is eating away at my pencils. The paper comes across as saturated. Would have loved it to have much better quality paper.
