Gr. 1[^]-3. Kids will have fun with this easy-to-read version of a classic Jewish tale. Here, the story has no particular time or place. Its hero is a young man who lives in a house he finds too noisy: the bed creaks, the roof leaks, and the chair squeaks. He goes to town and asks a wise man what to do and is told to bring in, first, a cow, then a sheep, later a donkey. The house gets very noisy indeed. It is only when the young man is told by the elder to get the animals out of the house that the noise returns to its former (and now acceptable level). Everything works well here. The vocabulary is just right, the chunky artwork accents the fun, and kids will enjoy getting the joke before the silly young man does. A Cow in the House was my favorite book when I was a toddler. I am much, much older now, have read countless books over the course of my life, and am highly educated. This book remains my favorite of all time and it is the one that I chose to give my granddaughter as her first reader. Life's most important lesson - the one that would put an end to war - is contained in this wonderful story about a poor farmer who is simply looking for a little more quiet in his humble farmhouse. The story and title have changed ever so slightly over the past sixty years. Long ago the same farmer was looking for a little bit more room in the same farmhouse but the storyline along with it's important message is identical. I still have my copy of "A Cow in the House," complete with my name written in crayon on the inside cover. This is a fun story that any parent or grandparent would love experiencing with their child. I certainly did with my children and now my grandchildren. The book never gets old and neither do the happy discussions that follow.
