For over 35 years, School Zone has been an innovator in children's educational products. School Zone creates a wide range of educational materials to support every curriculum.

My son really loves this book learning how to do cursive is fun

Apparently they don't teach cursive in school anymore.... thank you for making this book so we can still do it at home!

Awesome

This handwriting book I used with my 6 year old who loves to write and wanted to start cursive. She enjoyed the artwork and was not overwhelmed by the amount of work on a page. I never would have given my other 6 year olds a cursive book--she just loves drawing and writing. Having

home-schooled 2 older children already, I realize that cursive at 6 is unusual. The nice thing about this book is the reasonable quantity of work on each page. Good Buy.

Ordered this for summer homework, but will definately keep it going throughout the school year for more practice. Good Buy - Great Price.

these books are very educational. it is a good way for my son to continue to learn more over the holidays.

Another good workbook by School Zone. I like the way they've chosen to present letters but am not fond of turning the workbook sideways for some of the practice pages and would prefer all the pages to work in the same direction. My granddaughter doesn't mind, though, and that's what counts.

excellent condition, clear instructions, fast delivery and my daughter loves sitting and working on in it. They don't teach in the schools anymore so if you want your child to learn how to write....excellent choice
