Lippincott NCLEX-PN Alternate-Format Questions

Synopsis

LIPPINCOTT NCLEX-PN ALTERNATE-FORMAT QUESTIONS, 4E is designed to help anyone preparing to take the PN licensing examination. Students and faculty also use the book as a study guide and practice tests for preparing for faculty-made examinations. With Lippincott's PassPoint, the products used together can act as an ongoing assessment tool to monitor progress throughout the nursing curriculum. This 4th edition has everything needed for students to be fully prepared to answer every type of question found on NCLEX. More than 300 questions include multiple-response, drag-and-drop, hotspot, audio, chart, graphic option, and fill-in-the blank questions. Also included is a comprehensive test with an additional 120 questions. Rationales are clear and detailed and cover correct as well as incorrect answers. Test-taking strategies help students dissect each question to its core components and provide keys to choosing the right answer. The book reviews all the topics covered on the actual NCLEX-PN. Hundreds of questions at the application level or above prompt active learning and higher-order thinking. Questions are aligned with the National Council of State Boards of Nursing (NCSBN) 2017 PN test plan and are written in the style used on the licensing examination. An accompanying PassPoint site provides an additional opportunity for students to practice for NCLEX while also giving a glimpse of the full PassPoint experience.
