The Complete Book Of Puppet Theatre

Synopsis

A superbly comprehensive book invaluable for everyone interested in making, and performing with, puppets. First published under the title [^]IThe Complete Book of Puppetry, it rapidly became established as one of the most important books available on the subject. This new edition has been totally revised, updated and considerably expanded; it contains a wealth of new information and ideas, and extra chapters on a much neglected aspect of puppet theatre—^Âf^Â performance. For the beginner, the book presents all the information necessary to progress to a high standard of puppet artistry; teachers will find it an excellent resource book for all educational levels; the more advanced puppeteer will be particularly attracted by the new techniques described, the excellent selection of photographs and the special emphasis on performance.[^]R
