I LOVE THIS COLORING BOOK SO MUCH! The only coloring book like this that I love more is Fucksicles: Summer Nights Edition : Swear Word Adult Coloring Book: For grown ups who like to swear and color!. Yup, that's right... the SAME coloring book but on black paper. Yes, I know this isn't a very intricate coloring book. In fact most of the spaces are quite large, but it's just so darn

funny! I used these two sets of markers so far: Copic GL12SET Copic Atyou Spica Glitter Pens 12/Pkg and Copic Atyou Spica Glitter Pen Set B One Each Of 12 Colors (Includes Clear) GL12SETB

This was one of my favorite sections from Strange Paradise. Love this idea. These are perfect for any medium you choose (put something between pages). Sometimes the pictures just aren't right for watercolors, pencils, etc. These would be perfect for all kinds. Markers on one and pens on another. Or why not do a mix of all on one. This just screams fun and relaxation. Absolutely can't wait to do more of these!

I have been so excited all weekend knowing that I would be receiving this book today!!!! So much to my delight it even came early!!!! As expected, this book is of great quality and the images are awesome:). Can't wait to dig in tonight:). I'll be sure to come back and edit this post with a finished product!!!

This book is hilarious!! It is a paper back and has about 30ish pages to color. Pencil color are great, not markers BC they will bleed thru. This is an awesome present for your loved ones who love to swear! I've included a few photos of the book. Some pages are landscape and some are the opposite way.

This book is pretty creative. I love the idea of the swear words spelled out in popsicles. Normally I use sharpies to color in my pages, however with this one, the line weights aren't as thick as the books I'm used to so I just am careful not to press down too hard. The pages are one sides though, so it's ok if it bleeds through but I would put something behind the page you are coloring if you do use markers. Again very creative idea.

I love the idea of swear books. Many people miss the whole concept behind them and are readily offended. But honestly there is no need to be. John takes the words we wish we could say to so many idiots out there and combines them with fun art. It gives the rest of us an opportunity to vent, chill, and keep language colorful without the gaping mouths open in disbelief. I love coloring period, but John's coloring books as well as a few others are therapeutic and well worth the purchase.

Really funny and stress relieving! Would not recommend coloring this in public as it might get some

disgusted looks from parents of small children (because you know, a 2 year old can read efficiently).

This is a fantastic addition to any sweary coloring book collection. The 'cicles spell out your favorite words, but they also come in hilarious flavors. I honestly had a blast just brainstorming new flavors for a contest the author posted. The designs are fun, but not so intricate that you need precision surgical pencils to fill them in. This is a quality book with quality art for those of us with a twisted sense of humor.
