Spanish Conversation Demystified With Two Audio CDs

Synopsis

Unlock the riddle of speaking and interacting in Spanish Spanish Demystified provides you with a solid foundation for building conversation skills in that language. You can go at your own pace as you are guided through the fundamentals of communicating in Spanish. Organized around everyday themes such as meeting people, making plans, and talking on the phone each chapter features an in-depth dialog presented both in the book and on the audio, coverage of essential communication skills (such as asking a question or making comparisons), review of key grammar points, and written and verbal activities to reinforce new communication skills.

Customer Reviews

Jenny Petrow is an experienced developer of Spanish curriculum and the author of Spanish Demystified (McGraw-Hill, 2007). Saskia Gorospe Rombouts is an experienced teacher, editor, writer, and developer of Spanish and ESL curriculum. She is a native of Spain.

Great for beginners and even those who are advanced.

This book with CD's is as good as advertised. I'd had Spanish in elementary school virtually DECADES ago and wanted a "refresher" and this book fits the bill very well. It arrived on time, with the CDs and was exactly what I'd expected.

I'm learning Spanish. This book presents a lot of information without being overly long about details. It has two audio CDs and written exercises that help you to learn. It's a good reference book too. I'm using the book with a class but it would be great for use alone. One warning though: there is so much material that it might not be good for people who know no Spanish at all.

Very good as a tool for conversation classes.

Very well explained text with good exercises.

I am so glad that I bought this book with the two audio cds. It is really useful for improving my understanding and listening abilities. The conversations in the book are what Spanish people would normally make in real life. I think this type of books is the best method for mastering a foreign language.

An awesome book. It explains everything. I would recommend to buy this book. I am so excited.
AWESOME AWESOME AWESOME

I haven't worked that far through this book yet but what I have done I have found both interesting and useful
