Nervous: A Novel

Synopsis

In this follow-up to the mega-sensation *Addicted* and the lead-in to the highly-anticipated upcoming novel, *Vengeance* (available May 24, 2016) , the New York Times bestselling Queen of Erotica delivers a shocking and steamy story about a woman with a split personality who must overcome her disorder before her chance at a happy ending is forever destroyed.Jonquinette Pierce has never felt comfortable around men—except when she’s her alter ego, Jude, who takes over on the weekends to lead a life of wild and intense sexual escapades. Jonquinette knows she can’t keep living like this and sets out to overcome her split personality with the help of Dr. Marcella Spencer. But Jude isn’t about to let Jonquinette off so easily. Just as Jonquinette begins falling for her hot neighbor, Mason, Jude decides she’s had enough and goes on a sexual rampage to keep her alter ego from riding off into the sunset. *Nervous* takes readers back into the world of *Addicted* and keeps them hooked until the very end.

She is the publisher of Strebor Books, an imprint of Atria Books/Simon & Schuster. Visit her online at EroticaNoir.com.

No doubt about it, I knew that "Nervous" was going to be an interesting read, because Zane always produces something interesting. It was almost like a fictional story, but I'm sure that there's plenty of people out there who suffer with MPD (Multiple Personality Disorder) just like Jonquinette, the main character. I'm not sure which Zane books go in what order, but although she is a phenomenal writer, "Nervous" seems like an earlier work of hers before she really got her feet wet in writing books. I thought that this book of hers was a little mild and less descriptive on the sex scenes than what I'm used to. The end of the book is a real shocker...I wasn't expecting that at all. Overall, awesome writing Zane. I have some more of your books coming in the mail next week!!!! LOL

I really liked the book..

This is my favorite Zane Novel. This story is amazing. I love the way Zane pulls us into the life of Jonquinette. We feel her pain and struggle in attempts at having a normal life. The way Zane described and developed this character--it's hard for any reader to not feel personally invested in the story. Jonquinette is a seemingly normal woman facing extremely abnormal things...Multiple Personality Disorder--and that's just the tip of her iceberg. As the story unfolds we watch Jonquinette attempt to find love, work through her problem and discover the shocking secrets that came her to be SPLIT. There is also a shocker at the end that you didn't see coming that puts even more into perspective. I thoroughly enjoyed this book, I read it twice and plan on reading it again. This by far my favorite Zane book

I was interested from start to finish! It is so crazy to think that someone could be going through something like she was. This was my first Zane book and while it was not as racy as I hear others are, I'd definitely like to read more. What a great writer.

great book glad it turned out the way it Jon deserves to be happy..... have read it more than once

This book will lure you in, and totally take you for an erotic ride! Zane never disappoints! Showing how the mind protects the body but allowing the mind to tear down the body and mind to do it! Totally confusing well read it and you will enjoy finding out!!!!

This book had me on edge!!!! I couldn't wait to get this book. Zane did her thang, i mean this woman is so creative with her writing skills that it's unbelievable. i felt so bad for Jonquinette though, poor thing just didn't know what was going on. Jude on the other hand made me frustrated, but she was an interesting character. The end of this book was a shocker, really wasn't expecting that. But let me say this, if you haven't gotten this book go get it because this book is off the hook, no disappointments here. Great job Zane :)

Nope.
