Insane Mandalas Vol. 1 - The Original Stress Inducing Coloring Book: The World's Hardest Coloring Book

Synopsis

Tired Of The Same Old Humdrum Mandala Coloring Books? Then it's time to turn the volume to 11 and experience INSANE MANDALAS - The World's Hardest Coloring Book! Filled with 50 stress-inducing images of mind-blowing complexity this book will keep you busy coloring until your fingers are numb and you can't see straight. WARNING: Some of the Mandalas are VERY detailed and may require shading techniques. Each image is printed on its own page and is suitable for framing. That is if you ever finish one.

These mandalas are just perfect! I love to color mandalas and grayscale pictures. Coloring is a big part of controlling chronic pain for me. If the pictures are too simplistic, they are a waste of my time. The mandalas in this book are gorgeous! There is no doubt that they are for the advanced colourist. But they are not so difficult that you just give up. My book just arrived in the mail box and I can't wait to sit down and start coloring. If you enjoy a challenge, you won't regret this purchase!

if I could give this book a higher rating I would! I think this may be the BEST Mandala book I have! I LOVE!!!! The book is not a midnight book yet, However if she sells enough of these Intense Mandalas she just may, fingers crossed anyway....This book has white paper and is of medium weight paper. The images are on one side of the paper, The book is glue bound and pages can be removed with an x-acto knife. I would use a page between if using markers to keep under page

pristine. The images are amazing if you like intricate designs. Most are not terribly intricate. A few are very intricate, but I love this and I think you will too. Give it a try. Intense is so much cooler, it's not your everyday mandala. I recommend this book or any of her books to anyone.

Best Mandala book ever! Wish there was more than Vol. 1. There are a lot of detailed pictures, but a few with average difficulty. I love mandalas but it's hard to find a book that I like throughout. This one is different. The cover is very representative of the book. So, if you like the cover and the price, go for it. Well worth the money.

This is one of the better mandala coloring books I've purchased with a nice selection, many of them with the intricacy I particularly enjoy. I did take off one star due to a bit of false advertising. There are a number of pages that are simply enlargements of the centers of other mandalas in there. There is also significant repetition of elements in many of them - just rearrangements of identical elements. Well worth the cost of the book however with nice quality paper that takes gel pen coloring very well.

Love everything published by Marti Jo's Coloring! Great, challenging designs, good quality paper, reasonably priced, what else can I say? Always a quality product that gives you more than your money's worth.

Super fun coloring book! A very nice mix of challenge levels here, from not all that challenging, to awesomely intricate. The paper is very nice quality and gel pens look fabulous with these mandalas. All designs are on one side of a page, with the other side blank. Great in case of bleed through, or if you just want to hang something up. There is a little bit of design element repetition, but it doesn't bother me. I've included two completed mandala pictures and one in-progress picture so you can get an idea of the different levels. All done with glitter gel pens.

I love this book! The mandala are quite detailed and fun to color.

It is so intricate that you cannot even discern the lines. Gel pens are out and even colored pencils are difficult to use on it. It stressed me out so much I threw it away.
