Professor Miller completed his studies at the University of California at Berkeley and University of Chicago.

This book is very well written and organized. From front to back there are close to 600 pages. 16 chapters broken down into five major portions: The Criminal Justice System Today, The Police and Law Enforcement, The Criminal Court, Rehabilitation & Corrections and lastly Special Issues. Each chapter starts with a story or case that is referred to throughout the chapter, with section summaries. Also in each chapter there are ethical scenarios with a "You Be The Judge" ending. Each chapter is about 30 to 40 pages each. This has been a very good book and I wish you the best in your studies using it

It's hard to review a textbook in my opinion. I will review the book thus far as I have been using it in my criminal justice class. I think the information contained in the book is delivered well and easy to understand. The use of modern day cases helps make understanding the chapters easier. It's very nice to be able to rent the textbook for the class that you need and then return it upon completion. This feature saves me a lot of money and hassle from having to sell the book after the class is finished. I would have rather had a hard covered book rather than the paperback version just because it's not as flimsy, but I am making due. This book will more than suit your needs for your college coursework.

good book, good information, good graphics and ways of tying things together

bought this for my brother's college course.

Great

Book is easy to understand concepts. I also loved how if you were reading one chapter, and it briefly mentioned parole for example, in parenthesis, it would tell you what chapter it was first mentioned. I've never seen any other book so helpful

I rented this book for my administrative justice class. It is very resourceful, easy to read, and to understand. It also provides many case studies for better understanding. My book came in excellent condition. There was no writing or any highlighting in the text. It looks fairly new!

I actually ordered this book for a university class (Crim 100: Introduction to Criminology). Nonetheless, I still enjoy the book. It is instructional and interesting in such a way that studying was not a bore at all.
